Re: Bishop Jones Community Residences
 City of Syracuse City Planning Commission
 Notice of Intent to Act as Lead Agency for Coordinated SEQRA Review

Ladies and Gentlemen,

The City of Syracuse City Planning Commission (“**CPC**”) has before it a proposed project to be owned and operated by Helio Health (or another entity to be formed) that consists of: (A)(i) the acquisition of an interest in 0.505 acres of real property from Robert & Marjorie Jones Community Development Inc. after the combination of six vacant commercial lots of real property at 321-23 Cortland Ave., 323 Cortland Ave. rear, 327, 329-31, 335, and 347 Cortland Ave. into one new lot to be known as **Lot A**; (A)(ii) the acquisition of an interest in 0.58 acres of real property from Robert & Marjorie Jones Community Development Inc. after the combination of one lot of real property with an abandoned single-unit dwelling at 309 Cortland Ave. with four vacant commercial lots of real property at 102, 106, 108 Alexander Ave. and 301-05 Cortland Ave. into one new lot to be known as **Lot B** (collectively the “**Resubdivisions**”); (B)(i) the “**Demolition**” of the single-unit dwelling at 309 Cortland Ave.; (B)(ii) the redevelopment and construction of: **Lot A** into a 30-unit affordable and supportive living apartment building; and **Lot B** into a 37-unit affordable and supportive living apartment building (collectively the “**Buildings**”); and (B)(iii) “**Site Improvements**” that would include installing parking lots, landscaping, utility connections and sidewalks (the Resubdivision, the Demolition, the Buildings, and the Site Improvements, collectively the “**Proposed Project**”).

Based on a preliminary review of the Full Environmental Assessment Form Part 1 (enclosed), the CPC has preliminarily classified that the Proposed Project constitutes an Unlisted action as defined by the New York State Environmental Quality Review Act (“**SEQRA**”). As an addressee of this letter, your agency has been identified as one of the potentially involved agencies for this coordinated SEQRA review.

By issuance of this letter, the CPC will declare its intent to act as “Lead Agency” for the environmental review of the Proposed Project. Since the Lead Agency must be designated by agreement among the involved agencies, the CPC requests your agreement regarding the CPC’s assumption of the Lead Agency role for the SEQRA review of the Proposed Project.

Please indicate your agreement to the foregoing by responding in writing as soon as possible. Enclosed for your convenience you will find a Consent to Lead Agency Designation; if possible, please countersign or email a pdf of the attached consent to Cristian Toellner at CToellner@syr.gov.

While the Lead Agency designation process is underway, the CPC will begin its environmental review of the Proposed Project. Assuming that a consensus is reached on the CPC’s role as the Lead Agency, it anticipates making a determination of significance promptly thereafter.

GROWTH. DIVERSITY. OPPORTUNITY FOR ALL.

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Project : MaSPR-24-09 & -10, R-24-17 & -18, Z-2865

Date : 4/15/2024

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency’s reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “**Yes**” to a numbered question, please complete all the questions that follow in that section.
- If you answer “**No**” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

PRINT FULL FORM

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Q 5. Impacts on Flooding

The magnitude of the impact on flooding will be moderate because it will only affect the project site and adjacent properties, and there are no waterbodies close by. The action will be a long-term impact because it will change waterflow patterns, however, it will not be severe because while water drainage patterns will change, the applicant will install a subsurface storm water retention system along with tree plantings, to collect storm water and slow down stormwater runoff. The applicant is required to prepare a full Storm Water Pollution Prevention Plan and conform to all City of Syracuse and NYS DEC regulations. It is unlikely that flooding will occur because appropriate mitigation measures are being proposed, and no permits will be issued until the storm water system meets regulations.

Q 15. Impacts on Noise, Odor, and Light

The magnitude of the impact on Noise, Odor, and Light will be moderate because it will only affect the properties near to project sites. The action will be a medium-term impact because the construction is projected to last 14 months, however, it will not be severe because while sound will be elevated, the proposed construction will be conducted between 7 A.M. and 5 P.M. which is in compliance with the Noise Control Ordinance of the City of Syracuse. The applicant also proposes to plant more trees which act as sound barriers to mitigate the construction noise.

Determination of Significance - Type 1 and Unlisted Actions

SEQR Status: Type 1 Unlisted

Identify portions of EAF completed for this Project: Part 1 Part 2 Part 3

Upon review of the information recorded on this EAF, as noted, plus this additional support information

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the _____ as lead agency that:

A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.
