Days and hours of operation (for any business uses): n/a

Explain in detail what (if any) new additions or construction is proposed on the site: High Fence in Driveway for security & privacy

**Reason for request:**

The courts have distinguished between use variances (for uses which are not permitted) and area variance (for excess lot coverage, additions into required yards, etc.). Be aware that *the standards of proof for a use variance are much more demanding* than for an area variance and that *the burden is on the applicant* to provide such proof in arguing their case. (See Standard of Proof requirements on required submittal page.)

Use additional sheets of paper to present proof if necessary. Screening Device Waiver

The house was built into side of hill. The backyard is approximately 6 feet higher in elevation than the house. A normal height fence provides no privacy so 4 1x10 pineboards were added to top of the fence. The 4 sections that run along the driveway are 10 ft high total. The next 6 sections decrease in height due to yard elevation down to 8ft, 7ft.

The fence was installed after the 3 story house on the lot next door was demolished last summer. It was installed by homeowner Eric Chapman and wife Christina Chapman.

**Board of Zoning Appeals application Procedures**

Variance applications involve public hearings with the Board of Zoning Appeals. A variance application will not be considered complete on the applicant's part until all required submittals have been received and have been through a preliminary review by Zoning Office staff (and possibly other departments), including an evaluation of the application under the New York State Environmental Quality Review Act (SEQR).

Once an application has been determined to be ready for a public hearing with the Board of Zoning Appeals, it will be scheduled for the **next available** hearing date (allowing the necessary time from for the Board's authorization, newspaper publication, mailing schedules, etc.). A "Public Notice" regarding the hearing date will then be mailed to the applicant (and representative, if any), approximately ten (10) days prior to the hearing date.

The public notice is also published in the Syracuse Post Standard newspaper ten (10) days prior to the hearing date. Public notices are also sent to property owners contiguous to any property subject to a public hearing, and to other city departments and neighborhood organizations.

The application, and its contents, will then be open for inspection at the Syracuse Office of Zoning Administration during regular office hours.

Unless otherwise notified, all meetings at which public hearings are to be held will begin at 1:00 p.m. in the Common Council Chambers on the third floor of City Hall.

The applicant or his or her representative **must attend** the public hearing to explain the case request to the Board of Zoning Appeals. (The rules of the Board of Zoning Appeals **do not permit postponements** due to the absences of applicants or their representatives.) A variance decision is not final until a written resolution is adopted by the Board of Zoning Appeals and filed with the secretary to the Board. Depending upon the situation, the resolution may possibly not be adopted until a later meeting. A copy of the resolution will be mailed to the applicant.

Depending upon the type and complexity of the application, additional necessary reviews, and the hearing schedule, the entire variance application process from the submission of the application to the release of the resolution may take approximately two months.

*Please sign that you have read and understand the above information and return this page with the application.*
